Wednesday March 21, 2012 6:00 PM

We will start collecting donations for our prizes

January 2012

2nd Annual Library Patron Booksale - Autumn 2012

Recycle those beloved books for resale

We are collecting Children's Books starting January 2012

The Friends of the Whippanong Library

The Whippanong Library will be 119 years old in 2012. In the course of its long history it has been in several locations, including the second floor of the Whippany Fire House. It was originally stocked with books donated by the townspeople and staffed by volunteers. It is now housed in the Municipal Complex at the corner of Route Ten and Jefferson Road.

The Friends of the Library maintains the Petit Gallery within the Library, showcasing annual exhibits of our local children through our Board of Education and OLM Academy. Local residents and well known area artists are also invited to participate.

The 'Friends' group raises money for extras the Library can no longer provide with the budget cuts from the State and Municipal governments. We invite authors to come and do readings from their books. We have sponsored our Annual Tricky Tray and Book Sale allowing us to help the Library finance programs for the public, subsidizing the Summer Reading Program and Children's Story Time. We helped purchase replacement computers in 2010 and a DVD depository for outside the Library. We also have offered a stipend for teachers in our District to continue the clubs in the middle school which were cut due to budget constraints.

Can you help? We would love to have you!!
